Please consider my comments with regard to the Proposal of Final Judgement for the Tunney Act proceedings in this case.

In summary, I declare that the PFJ is insufficient, both to ensure Microsoft's compliance with Antitrust laws, and to remedy the effects of their breaking of said laws. This insufficiency is caused by many factors, and my viewpoint is very accurately reflected by Dan Kegel's essay, opinions, and open letter at <http://www.kegel.com/remedy/letter.html>. I urge you to seriously consider his viewpoint, which I, an informed US citizen, share.

Sincerely,
Bryce Schober
